CONTENTS

Volume 1, Issue Nos 1–2

INTERNATIONAL JOURNAL OF OPTICAL COMPUTING

Issue No. 1, October 1990

Editorial: J. A. Neff 1

In Memory of Dr George Eichmann: J. A. Neff 3

Parallel Optical Content Addressable Memory (CAM) Arithmetic Multiprocessor: A. Kostrzewski, G. Eichmann, D. Hyun Kim and Y. Li 5

2-D Optical Generator of Updating Probabilities for VLSI Implementation of Boltzmann Machines: Ph. Lalanne, J. C. Rodier, H. Richard P. Chavel, E. Belhaire, K. Madani and P. Garda 25

Reconfigurable Optical Interconnect Using an Optically Addressed Light Valve: N. Collings, S. G. Latham, R. C. Chittick and W. A. Crossland 31

Tolerance Studies for Digital Optical Computing Circuitry, with Application to Nonlinear Interference Filters: B. S. Wherrett and J. F. Snowdon..... 41

Associative Memory for Image Classification: New Interleaved Coding of 4-Dimensional Information in a Plane: R. C. Chevallier 71

Optical Implementation of High-order Associative Memory: A. L. Mikaelian, B. S. Kiselyov, N. Y. Kulakov, V. A. Shkitin and V. A. Ivanov 89

Digital Signal Recording and Readout System Using One-dimensional Hologram Technology, A. L. Mikaelian, E. H. Gulanian, Y. S. Vynokurov, A. V. Burgomistrov, B. S. Kretlov and K. V. Musatov 93

Issue No. 2, December 1990

Optical Conveyor Processing of Radiosignals: N. N. Evtihiev, V. V. Perepelitsa, N. A. Esepkina, A. P. Lavrov and A. D. Simo 101

A Paradigm for Digital Optical Computing Based on Coded Pattern Processing: J. Tanida and Y. Ichioka 113

Optical Implementation of Hetero-association Neural Network with Inter-pattern Association Model: F. T. S. Yu, T. Lu and X. Yang 129

Acousto-optic Digital Multiplication Via Analogue Convolution in the Spectrum Domain: Y. V. Gulyaev, V. V. Proklov, A. U. Bashlakov and S. V. Sokolovsky 141

Digital Optical Arithmetic Based on Systolic Arrays and Symbolic Substitution Logic: D. Fey and K.-H. Brenner 153
